STRIKE HEADS ARRESTED BY U. S.

State of Sonora Winning
Against Federals—New Plot
in Germany—Senate Dis-
agrees on Peace Pact—En-
gineers to Remain on Jobs
—Oil Worker Addresses
Hoover Meeting—Print Pa-
per Probe.

CHICAGO, April 15.—Six officials
of the "outlaw" railway unions
were arrested this morning by
United States marshals on warrants
issued by United States Commis-
sioner Mason, charging them with
violating the Lever act.

Warrants have been issued for
twenty-four other alleged leaders
in the insurgent railroad strike, it
was said at the Federal building.

SONORA IS WINNER IN NEW REVOLT

NOGALES, Ariz., April 15.—So-
nora, Mexico, has won her first
fight for freedom. General Angel
Flores, of the independent forces
this morning fought his way across
the Sinaloa border, taking San
Blas, on the boundary line, and is
proceeding with 2500 men, 1000
of whom are Yaqui Indians, to-
ward Culiacan, capital of the state.

According to special advice from
Hermosillo, capital of Sonora, fed-
eral troops are deserting the com-
mand of General Ramon Huerta,
chief of military operation in Sinaloa
and Tepic.

DISCOVER NEW PLOT IN HUN REPUBLIC

PARIS, April 15.—Dispatches to
the French foreign office today in-
dicated that a new revolutionary
military movement was organizing
in Germany. An outbreak against
the Ebert government was expected
momentarily, the dispatches said.

A news agency dispatch from
Berlin today said that Major Gen-
eral Von Leutwitz and Major Bis-
choff, accused of attempting to fo-
ment a new revolt in Germany,
have been arrested.

SENATE COMMITTEE SPLITS ON PACT

WASHINGTON, April 15.—The
senate foreign relations committee
again failed today to reach any
agreement on the peace resolution
passed by the House last week.

Some Republican members of the
committee urged the Senate be
recommended to act on the Knox
peace resolutions, now on the Sen-
ate calendar, instead of the House
measure.

ENGINEERS REPORT IS DUE NEXT TUESDAY

Announcement that the report
of the engineers' committee of the
East Bay water commission will be
made before the water commission
next Tuesday was made at the
special meeting of the commission
yesterday in Oakland. The report
has been pending for some time and
it is now in the hands of the com-
mittee of the East Bay engineers,
who comprise the engineers com-
mittee of the water commission,
and they report that it is finally
in shape for presentation.

City Attorney D. J. Hall, City
Engineer H. D. Chapman and
Councilman E. J. Garrard are the
Richmond members of the commis-
sion and all three were in attend-
ance at yesterday's meeting.

Bayard Lang Heads H. S. Alumni Body

Bayard Lang was elected presi-
dent of the Alumni Association of
the Richmond high school at the
meeting of the organization held in
the auditorium of the high school
last night. Retha Dreyspeling was
elected to fill the office of vice
president and Carmen Kinney was
made secretary-treasurer of the or-
ganization.

Plans were begun at last night's
meeting for the annual senior
dance, which will take place June
5. As yet no committees have been
appointed, as all definite arrange-
ments for the affair will be made
at a later meeting.

Miss Winifred Tinning, daughter
of Attorney and Mrs. W. S. Tin-
ning, left yesterday for New York,
from which city she will sail for
France about May 1 to join the
Ann Morgan relief mission, which
is doing reconstruction work in the
sections devastated by the war.
Miss Tinning will have charge of
a relief track. She expects to be
gone about six months.

RICHMOND IS DRAINED BY OAKLAND

A Problem Which the Cham-
ber of Commerce and Local
Merchants Must Solve—
This Drain Is Sapping the
Financial Life Blood of Our
City and Merits Serious
Consideration of All.

About the hardest problem which
Richmond has to solve is wrapped
up in the fact that so much of its
trade goes to Oakland. Bankers
and others who have figured this
state that approximately ten mil-
lion dollars of Richmond money is
expended every year with the
Oakland retail merchants. This
they judge by checks coming back
from Oakland banks and from
other sources and evidence.

This is an awful amount to
take out of circulation in any one
town and put it in circulation in
some other town. This builds up
our neighbor city at the expense
of our own and it is a lamentable
state of affairs. This paper has
times and pointed out all the ins
and outs of it, but apparently it
does no good whatever. It is a con-
dition, not a theory, and it is
clearly up to the local merchants
of Richmond to meet and cope with
that condition. If they cannot do
it, then in course of time other
merchants will come in here and
take their places who can, for ul-
timately it has got to be and will
be met.

We know too little about mer-
chandising to be a competent critic
or adviser along these lines, and
therefore shall not attempt it. We
realize that something ought to be
done to meet the emergency, for
emergency it is, and everybody else
realizes it, but the condition con-
tinues from year to year with lit-
tle or no abatement or change.

The local merchant claims that
no money can be saved by trading
elsewhere, and the rank and file
of the people claim there can be
and is, and there you are. If the
people are right, then it is up to
the merchant to find that out,
and seek a remedy. If the mer-
chant is right in his claim and the
public is wrong, then it is up to
the merchant to prove it to the
people. There are probably two
sides to the question, and it ought
to be thoroughly threshed out and
then the proper remedies applied.

Chamber Should Help

And right here is a field of en-
deavor in which the Chamber of
Commerce could and should accom-
plish great good. It should in-
vestigate this very grave problem and
sift it right down to the bottom.
Incidentally it could be of help
and benefit to the local merchants
in the matter, for they need ad-
vising and counseling with, and
doubtless would welcome such a
move on the part of the Chamber.
This is no laughing matter. It is
very, very serious, and is getting
worse all the time. The local
merchants are not even holding
the trade they did have. It is slip-
ping away from them gradually all
the time, until the procession of
Richmond shoppers in Oakland

MICKIE SAYS

BURGLARS ENTER HOME, TAKE CASH AND CHECKS

Burglars entered the home of
John Holman, 915 Seventh street,
last night between 8 and 9 o'clock
and made off with \$34 in cur-
rency and two Standard Oil Com-
pany checks, one for \$71.50 and the
other \$27.00. All of the family
were away at the time and the
robbers pried open a front window
and thus entered the house.

Nothing else but the money was
taken, the burglars stopping their
search, apparently, after they had
ransacked a trunk in which the
money had been hidden before the
family's departure. Officer Crowder
was sent out on the case after the
family had returned and sent in
the call to the police station, but
he was unable to find any clue as
to who the robbers might be.

HIGH SUGAR PRICE EXPECTED FOR S. F.

SAN FRANCISCO, April 15.—
With raw sugar on the New York
market jumping from \$18.05 to
\$18.30 yesterday, there is no hope
of a stable price for that product
on the western market, according
to Frank Connolly, of the Retail
Grocers' Association.

He predicted yesterday that local
grocers will soon be charging 23
cents per pound for the product,
and 25 cents within three weeks.

MRS. JOAQUIN MILLER GUEST OF MENDELSSOHN CLUB HERE

Mrs. Joaquin Miller, wife of the
famous "Poet of the Sierras," was
the guest of honor at the meeting
of the Club Mendelssohn yesterday
afternoon. Readings from the
poet's works were made before the
club by Mrs. Miller. Several other
numbers were included in the af-
ternoon program. A vocal solo
was given by Mrs. C. B. Smith and
a piano solo was rendered by Mrs.
Irma St. John. Miss Hopkins, who
was one of the Oakland visitors at
the meeting, and who is an accom-
plished violinist, gave several vi-
olin selections which were highly
applauded by the audience.

A MULTITUDE ASKING FOR HOMES

Building Is Going On All
Over Richmond, But Not
Half as Much as the De-
mand Calls For—Every
House, Rooming House and
Apartment Is Crowded, and
Frequently Not Even a
Bedroom Can Be Found.

The world war has run its red
course, but in its passing it has
kindled to a brighter flame that
love of country which burns in
every American heart. Now we
turn with willing hands to the task
of making our broad domain more
accessible, our homes more beau-
tiful and more plentiful, more in
tune with the mighty sweep of hu-
man progress, and we realize as
never before the power and happi-
ness which comes from touching el-
bows with our neighbors.

The country's building program,
checked during the war, is still sev-
eral years in arrears—statistics say
\$1,750,000,000 behind with building
operations, and it is probable that
a long time must elapse before our
people can be supplied with home
and business premises sufficient for
the growing population. In this
relation, every community has a
duty to perform and every member
of such community should dedicate
his, or her, moral and active in-
fluence to the upbuilding of their
cities, thereby helping to carry
along those great principles of de-
mocracy and of mutual help for which
our soldier dared death on far away
battlefields.

Civic pride demands that Rich-
mond close up its proportion of this
gap as rapidly as possible, as the
industrial development is far in ex-
cess of the home supply necessary
for the comfort of the rapidly in-
creasing number of workers who
would prefer living in Richmond if
suitable accommodations were pro-
vided. Therefore, by investing in a
home, either for rent or for sale,
you are not only helping yourself
but your city as well.

Building Is Active
The above is from Burg Bros.
Richmond Times, a monthly bulletin
they issue, and is quite true and
timely. Not alone in Richmond
does this scarcity of homes exist,
but all over the United States. Any-
one who can build ought to do so,
for it is not likely that the cost
of building is going to come down to
any extent for a number of
years, so far behind the demand is
the supply.

That building prospects for Rich-
mond this year are exceptionally
good, seems to be the consensus
of opinion among Richmond realty
dealers who, in spite of the present
high cost of building materials and
labor, are preparing a larger build-
ing program than ever. In many
cases the purchases of buildings
are made before the completion
of the construction, so acute is the
shortage of houses.

Harry Kueffer, of the E. H. Kuef-
fer Company, which is one of the
most active realty firms in the city,
stated yesterday that the plans of
the company for the coming season
include the erection of many dwell-
ings.

HUMOROSITIES

Heck: They say that when
a man is drowning his past
life is brought up before him.
Peck: That happens also
when he has a quarrel with
his wife.

Retrospective

Doctor: You have nervous
dyspepsia, same as Brown had.
His was caused by worrying
over his butcher's bill. I di-
rected him to stop worrying.
Stranger: Yes, and now he's
cured, and I've got it. I'm his
butcher.

Economical

Hub: Look here, Mary. It
was only last month I paid a
dressmaker's bill of \$74, and
here is another one for \$60.
Wife: Well, dear, doesn't
that show that I am beginning
to spend less?

BURBANK FESTIVAL AT SANTA ROSA MAY 1

Santa Rosa is planning to honor
her most prominent citizen, Luther
Burbank, with a great celebration
Saturday, May 1. An elaborate
open air pageant entitled "The Sun-
worshippers" will be produced un-
der the direction of Fred Carlyle,
dramatic coach for the University
of California. Over 250 group and
solo dancers will undertake an al-
legorical dramatization of the four
great historical epochs of the wor-
shippers of the sun. The last act
will portray Burbank's creative en-
dowment through the aid of the
sun, which is so often quoted by
this great plant specialist as the
source of all plant and animal life.
The coming event is being given
wide publicity. Elaborate prepara-
tions are being made to welcome
the thousands of people who will
journey from different parts of the
state to visit the home of Luther
Burbank.

Richmond Team Beats Berkeley Men

The speedy basketball team of
the Lincoln grammar school de-
feated the Burbank school of Berk-
eley in the Berkeley Y. M. C. A.
Wednesday afternoon by the score
of 14 to 10. Throughout the en-
tire game the contest was very
close, good head work being shown
by both sides.

Representing Richmond at the
game were the following players:
Arthur Muth and John Hamilton,
forwards; Leonard Nunn, center;
Raymond Myers and Archie Hig-
gins, guards, and Alfred Axelson,
substitute.

MR. PILLSBURY SIDESTEPS ISSUE

"Taxpayers Assassination"
Mails Out Letter to All
Voters in Which Astute At-
torney Endeavors to Prove
That Black Is White and
2 and 2 Do Not Make 4.

"Is Corporal O'Brien in the
ranks?"
"He is."

"Then let the battle proceed!"
And any time General Pillsbury,
Colonel Levy Boswell and Major
Clare Horner are responding "Pres-
ent," the "Taxpayers' Association"
is ready to function.

We received a long letter from
that association yesterday, as did
all the other voters in Richmond,
and find it quite interesting. It
contains a correspondence between
Editor Galvin of the Independent
and Attorney E. B. Pillsbury, for
the benefit of the dear people,
and we can all feel reasonably as-
sured that any time Messrs. Galvin
and Pillsbury act together in the
interest of the dear people, the
latter can go to the movies or base-
ball game and forget it, for they
will be fathered, mothered and
well-served by the milk of human
kindness flowing from the breasts
of these philanthropists, even as
Snow Mountain water flows down
upon the parched and thirsty earth
and partially at least alleviates the
prohibition drought.

The meat in the letter is the
following question and answer:

Mr. Galvin: "Are you against a
ferry to San Francisco from the
Richmond municipal wharf?"

Mr. Pillsbury: "I am not."

Simmered down, that is all there
is to the correspondence. But why
go to all that trouble and expense
of telling us what we all already
know?

As there is not the remotest pos-
sibility of any such thing happen-
ing, there is no reason why Mr.
Pillsbury or anybody else should be
against it. But he is not going to
establish any such ferry, and neither
is anybody else. Possibly he would
not be against the Palace and St.
James hotels moving over here
from San Francisco, either, but
that is no sign they are going to
do it. Maybe he is not adverse
to the establishment here of an
aero line between Richmond and
London and Paris, or the north
pole.

POLITICAL CORRUPTION RAMPANT

Senator Borah is making some sensational charges against the campaign managers of General Wood and Governor Lowden. He declares they are attempting to control the Republican nomination by the lavish use of money, and in way of specifications he says that votes for Wood and Lowden in the recent South Dakota primary cost \$10 each, and that \$2.50 each is being paid for "testimonials" in Indiana.

Not long ago the New York World charged that wealthy men had contributed \$1,000,000 in behalf of General Wood, and gave names. Some of the alleged contributors denied participating in this fund, whereas other alleged contributors have remained silent.

General Wood himself denies any knowledge of such sums being expended in his behalf.

This much is evident: Conditions throughout the entire country are calculated to invest the present campaign with more political corruption than the nation has ever known.

Never before was there such a flood of money in circulation. Most of it is of the badly inflated variety, it is true, being probably for the most part, certainly for a large part, federal reserve notes issued upon the security of Liberty bonds.

Conditions that inflate wage and price levels as they are inflated today afford an ideal opportunity for a slush fund campaign, but there are other corrupting conditions still more demoralizing. In the general confusion and upset of post-war times, there is a general scrambling for advantage in all reconstruction processes. When big business is piled high with artificially-created bank balances and swollen profits, it is not backward about seeking through political alliances to retain its sordid hold upon privilege. So, those who pass the hat this year are not apt to encounter much coldness upon the part of favor-seeking business. Whether they are glad contributors, out of their unprecedented abundance or forced contributors, as they were in Mark Hanna's day, makes little difference in the net results, which are an electorate steeped in capidity or pressed by need, with corrupt political interests ready to buy.

But added still to conditions thus enumerated, there is in the campaign the most debasing and corrupt of all political influences—the lawless and anarchistic liquor traffic. Everywhere it is struggling for a comeback, industriously operating in both parties, and where it operates it relies solely upon the corrupt use of money.

Altogether this is not a promising year for the best American ideals. There is a money craze that seems to be permeating the whole structure of American society.

What's the difference between a busted broncho and we married men?

A few months ago one had to work or fight. Now one has to work or starve.

Being willing is not enough nowadays. You have got to deliver the goods and produce results.

There is usually enough trouble today without sending a scout into the future to look up recruits in that line.

If a man would abuse a dog like the average man abuses his stomach the humane society would get busy.

You should be duly proud of your worthy achievements, but don't puff out your chest until you look humpbacked in front.

The person who has seen all there is in life and is tired of the whole bloomin' business, is generally about 18 to 20 years of age.

We have the hardest kind of work getting the Socialist and I. W. W. fellows to join our Sunshine Club, for the reason that they prefer gloom.

The rule now is to exterminate roosters as soon as the hatching season is over, and the militant suffragette seems to want to apply it to other males of the species.

We roar because so much of the female form divine is exposed to public view, and then buy theater tickets for the purpose of seeing not much of anything else.

A man who is converted ought to stay converted, same as a politician who is bought ought to stay bought. Otherwise it discourages both the preacher and the corporation.

The trouble with the average Socialist is that he wants a division of what he hasn't and won't divide what he has.

The government has under arrest a lot of contracting firms down east which cleaned up millions by furnishing shoddy goods; not at all what was contracted for. Government agents are in on the steal and have also been placed under arrest. The whole bunch out to be court-martialed and shot.

The chances are a great musician could play just as well if he would blow himself for a hair-cut occasionally.

Again we are reminded that the fierce Russian Cossack, like the fierce Siberian bloodhounds of "Uncle Tom's Cabin" fame, isn't as fierce as he looks.

Multitude Ask Homes

(Continued From Page One.)
ing houses all over the city.

"We are building all of our houses with the intention of disposing of them at once," said Mr. Kueffer, "as the cost of materials makes it impossible for us to build houses for renting and make any profit on the investment. The shortage, however, is so acute that we had no trouble in disposing of the houses at once. In fact, we are not nearly able to supply the demand."

"Five new houses are now being erected in the Mira Vista Extension and we are planning the construction of many more during the coming season," states J. A. Waldy of the Contra Costa Realty Company.

"We find ourselves unable to come anywhere near to meeting the demand for dwelling houses," continues Mr. Waldy. "Many of the houses we build are sold long before they are finished."

"We are counting on a very heavy year for building. We are already doing a lot of work in that line and as soon as weather conditions are more settled we intend to extend our building program considerably."

Improved property is going very fast, according to the report of W. H. Conn of Conn Brothers. He states that sales of houses during the first part of this month have been very good, and that indications point to a prolonged busy period for the real estate business.

Pillsbury Sidesteps

(Continued From Page One.)
But the fact remains that Mr. Pillsbury is seeking to kill the only ferry line between San Francisco and Richmond that there is any hope of being established.

Another fact is that he said at the ferry hearing before the State Railroad Commission that it was the proudest moment of his life when he succeeded last fall in defeating the Richmond harbor bond issue. This being true, the tall must go with the hide. In killing Richmond's harbor he must kill along with it Richmond's municipal wharf, highway and tunnel and cause the channel to fill in and become utterly useless.

And when that is done, how in blazes is the San Francisco-Richmond ferry that he is not against going to get to the municipal wharf?

CLARA KIMBALL YOUNG STARRING IN 'TRIBBY'

"Tribby," the famous novel and stage drama, has again been dramatized. But this time it is presented through the medium of the screen. It is a Republic release and will be shown at the Richmond theatre today and tomorrow with the much admired Clara Kimball Young in the sensational role of "Tribby."

This screen production marks an advance in the class and quality of motion pictures in that it has in the cast such well-known personages as Wilton Lackaye, Paul McAllister and Chester Barnett. More than one hundred persons are employed in the supporting casts. "Tribby" is the story which caused such a sensation after it was published several years ago. Thousands have read this much-loved novel by George Du Maurier, and it has to its credit one of the greatest stage records of all time.

The screen version magnifies the action and drama in the story and with Maurice Tourneur as the director it has been given the full benefit of a skillful handling. "Tribby" will probably go down in motion picture annals as one of the greatest screen dramas ever produced.

ASKS LIMITATION OF EMPLOYMENT AGENTS

To limit the fees of employment agencies is the purpose of an initiative petition which was submitted to and endorsed by the Building Trades Council last night.

The council reports that the working agreement entered into with the employers of men engaged in the building trades throughout the bay district is proving highly satisfactory to both sides. The agreement became effective the first of this month.

At present everything points toward an early and satisfactory settlement of the strike of the mill men in the San Francisco bay region, according to the report in regard to the matter which was made at the meeting.

A communication protesting against the employment of non-resident and non-tizen laborers upon bonded county road work was read before the council and endorsed and it will now be forwarded to County Surveyor H. R. Arnold. A duplicate of the communication will be sent to the county supervisors.

A committee of five members, which will make arrangements for a benefit dance to be given in the future by the Building Trades Council, was appointed last night, the following men being named to act on the matter: N. D. Swartout, W. A. Cappelle, F. W. Heckman, M. O. Hauge and W. G. Casey. This committee will start at once to make negotiations to secure the dancing pavilion at East Shore park for the affair, the date of which has not yet been determined.

Three delegates, two from Painters' Union, No. 560, and one from Laborers' Union, No. 443, were seated last night. Those from the painters were L. Jarrett and W. A. Cappelle, and the laborers' delegate was James Feeley.

Paderewski Will Play in Your Home With the Marvelous Duo Art

When a Duo Art Roll by Paderewski is played in the Duo Art Piano, it is his touch, his tone, his technique, his personality—the faithful reflection of his own musical soul.

The only difference between the playing of Paderewski in person and the reproduction of his playing on the Duo Art is that you do not see him at the Piano. But you feel his presence—you know it is Paderewski who is playing, because you recognize his performance, his characteristics of tone, dynamics and interpretation.

The marvel of this remarkable instrument lies in the fact that it is capable of and does photograph not only the playing of Paderewski, but also his personality with unerring accuracy and completeness.

And not only Paderewski, but Bauer, Ganz, Hofmann, Grainger,

Cabrillowitch, Lelinski, and scores of the world's master pianists. There is absolutely no room left for doubt; after you have heard their performance, that the music which comes forth is their actual playing. And to think you can have these great artists play right in your own home—any time—to please yourself, to entertain your guests. It is surely wonderful.

Not only is the Duo Art a remarkable reproducing Piano, it is also a perfect Player Piano, with improved and exclusive devices which enable you to play your favorite music according to your own musical taste and interpretation. Then again, it is a regular Piano (either grand or upright) of beautiful tone and superb action for hand-playing.

We cordially invite you to come and hear the Duo Art.

Richmond Drained

(Continued from Page One)

every day, and especially Saturdays, looks like a small army of hootleggers, all armed with suitcases and shopping bags.

Every dollar spent away from home does the home town \$50 worth of damage, and every dollar spent at home does \$50 worth of business before it gets away from the home town.

No Advertising

One very bad feature about it is the fact that the business men of Richmond do not advertise. They do not even know how to advertise, not one out of a dozen of them. And not one out of a dozen of them ever do any advertising at all, in any paper, from one year's end to another. And there is not a town or city in the United States of America, except this, where such a thing is true.

Take up any paper around this bay, or in Northern California, or anywhere else, and today you find them all crowded full of advertisements of their local merchants. Then take up any paper in Richmond and you find nothing of the sort.

San Francisco, Oakland, Alameda, Berkeley, Vallejo, all the cities and towns of this region; all crowded with advertising—and Richmond as dead as a doornail, as far as that is concerned. Our local merchants are wrong, because it is simply absurd to say that they are right and all the millions of others all over the United States are wrong.

What they should do is to club together and bring in an expert advertising man, and pay him, and then allow him to get busy, and keep busy, and until they do this the present condition can be expected to continue—and in the meantime some of them are going to go broke.

The News is not making this protest half so much on account of the press as it is on account of the whole city, for this Oakland drain is sapping the very life blood of Richmond, and must be stopped.

Mrs. John Gerlach was down for a few days from their Healdsburg ranch and she is looking fine. We would say something real flattering about that, only John gets the paper. We always did like Mrs. Gerlach, ever since she helped us cut potatoes for the war garden.

It has been so dingbusted sloppy this week that everybody has gone down cellar and buttoned up the door, and local news has been as scarce as hen's teeth.

This rain has been another million dollar blessing to the country, but it is liable to start another crop of frogs for Dan Reardon to feed.

If one set of leaders sells the switchmen out to the railroad corporations and another set sells them out to the Bolsheviks, they will be between the devil and the deep blue sea, but they have one satisfaction—they can get jobs most anywhere at a higher wage than they have been getting.

Miss Catherine Keer, sister to Mrs. F. J. Hulanicki, departed last night for Exeter, to visit a couple of weeks with an old friend there, Mrs. Whitney, formerly of Berkeley.

The News has a job for an all-around good printer who also understands presses. Night work, steady situation, wages \$45 a week.

Of course we deplore the burglarizing of our gent's furnishings store, as that is against the law, but how in blazes is a fellow to get a suit of clothes any other way?

Every time we have to wait half an hour for a car at Twenty-third and Macdonald we find Powell also waiting for the same car. He seems to put in most of his time waiting for that car, and if he got time and a half for it he would be rich.

That load of gravel Zeb Knott promised the neighbors out in the editorial 234 ranch section, at the edge of Twenty-third street, has not shown up yet and none of us are going to vote for him next time. We have clubbed together and agreed that we will get somebody to run against him for supervisor, so we can get that load of gravel.

If the school bonds fail to carry it will be the School Board's own fault, because of their lack of publicity. The time when any such thing as that can be passed, carrying with it over half a million dollars, without letting the people know all about it, repeatedly, has past and gone long ago.

We lost fifteen minutes yesterday watching Ballinger handle big bundles of government bonds. He juggles them around just like he would sales of hay, or sales of cotton down south where he came from in youth. Maybe that's how he learned it.

D. K. Thornton of Merced county visited his brother, Jack Thornton, 532 1-2 Fifth street, yesterday. Mr.

Thornton is here attending the supervisors' convention in San Francisco.

Mrs. C. B. Nicholl left yesterday for Los Angeles, where she will make a short visit before leaving for New Orleans. From that city she will go to Cincinnati. Her son Wilbur accompanies her on the journey, which will take several months.

Al Schneider, well known local tailor, and his wife have just returned from a motor trip in the southern part of the state.

Sam Wright, the veteran police sergeant, has been removed to a San Francisco hospital to receive treatment for a severe case of stomach trouble.

George Wall came over and shook dice with Ben Shapiro for the lunch and won. And now Ben has to sell somebody another lot to get even, because Wall has an appetite similar to that of an elephant for peanuts.

Everybody is asking who put in the big ad. against the school bonds. Search us. If the Lord don't know him any better than we do he is lost. All we know about him is that he came from Oakland and we made him pay \$40 in advance.

The ladies of the G. A. R. held a benefit tea at the home of Mrs. Emma Rowe, 2269 Roosevelt avenue, yesterday afternoon.

Mr. J. S. Hawthorne of Clarinda, Iowa, left Wednesday evening for Los Angeles. Mr. Hawthorne was visiting at the home of M. D. Crow and family, 444 Second street.

Frank E. Spencer, of Chicago, is making a short visit at the home of his brother-in-law, Rev. Paul Little. Mr. Spencer is the general manager of the big firm of Anderson & Gustafson of Chicago, which is one of the biggest companies in the country dealing in petroleum products. The firm has business offices in several of the larger cities of the United States, among them San Francisco. The primary reason for Mr. Spencer's trip to this part of the country is to look after some business matters connected with the San Francisco office.

Bert Treanor, who is the brother of Mrs. W. E. Cunningham, was a visitor at the Cunningham home Wednesday. Mr. Treanor is well known in this city, having been employed for a time by the La Moine Drug Company, previous to his enlistment in the army.

A. Beer has just purchased a new Pierce Arrow sport model roadster and is planning to motor to Fresno soon to visit relatives there.

ROTARY CLUB GETS CHARTER TONIGHT

The presentation of the charter to the Richmond Rotary Club will be the stellar event for Richmond Rotarians at the important meeting of the recently formed organization, which will take place in the Richmond clubhouse this evening.

Alex. Sheriff, San Jose, past governor of the Twenty-third district, including California, Arizona and Nevada and the Hawaiian Islands, will present the charter as the representative of the International Rotarians. Joseph F. Brooks, president of the Richmond Rotary Club, will accept the charter upon behalf of the Richmond club.

The affair will open with a dinner served by the Richmond club at the clubhouse at 10 o'clock. The first hour of the evening will consist of a program of music and comedy arranged by the April entertainment committee, consisting of Charles Renwick, chairman; Fred B. LaMoine and John F. Galvin. Features to be offered are being kept secret.

Reservations for the dinner have been made by fifty prominent members and officers of the Rotary Clubs of San Francisco, Oakland and Berkeley.

REGISTRATION FOR MAY PRIMARIES DONE

The total registration figures for the May primaries in Contra Costa county have been announced by County Clerk J. H. Wells. Of the 16,650, 6,500 are from Richmond. Mr. Wells estimates that in the August registration there will be at least 20,000 registrants listed for the primaries. The registration by parties follows:

Republicans	11,149
Democrats	3,852
Independents	82
Progressives	66
Socialists	327
Prohibition	91
Non-partisans	135
Declined to state	741

CAPITAL STOCK OF BANK TO INCREASE

At the meeting of the stockholders of the Bank of Richmond Wednesday night it was decided to increase the capital stock of the bank through the exact amount has not been given out. A very large increase in the business for the past year was reported at Wednesday's meeting.

The following directors were named for the ensuing year: W. K. Cole, W. S. MacRacken, Dr. W. S. Lucas, B. D. Marx Greene and C. S. Downing. The following were elected officers: C. S. Downing, president; Dr. W. S. Lucas, vice president; C. Allen, cashier.

HOUSEWIVES FIGHT HIGH BREAD PRICE

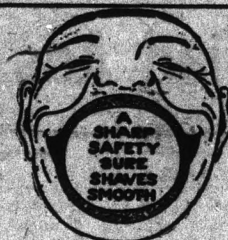

Boycott of the bread furnished by out-of-town bakers was endorsed by the Housewives' League at the meeting yesterday afternoon, after a report had been submitted telling of the raise in the price of bread which has been made by Oakland and Alameda bakers. As yet the local bakery men have made no increase in their prices, but if they do, their product will be boycotted the same as that of the bread sold by the Oakland and Alameda bakers, according to Mrs. Clara Wilson, president of the Richmond Housewives' League.

The boycott of potatoes is being strictly observed by Richmond housewives, says Mrs. Wilson. Reports were made on the startling disclosures made by the San Francisco and Oakland leagues in the recent investigation of the doings of the "potato trust." It has been found that thousands of sacks of potatoes have been allowed to rot in the warehouses throughout the state while the people of the cities have been charged exorbitantly for the product. Cars loaded with potatoes have been sidetracked in order that the contents might rot and thus keep up the price. Whole fields have been plowed under to make the shortage more acute.

The wonderful success of the Alameda housewives in cooperating with the owners of groceries in that city was explained by the local housewives at yesterday's meeting. The women of that city have formed an agreement with one grocery owner whereby members of the Housewives' League will get certain products at a reduction. This same merchant has promised that when the membership of the league in his city reaches the 500 mark he will give a rebate to the members of the league on all goods purchased at his store.

Housewives here are requested by the league to use the cheaper cuts of meat as much as possible in order to reduce the price of meat. Sixty dozen eggs were sold at yesterday's meeting and more could probably have been sold had the El Cerrito party who is furnishing the eggs had any more on hand.

Reading Advertisements Has Helped to Make This a United Country

Jim Hawkins props his feet on the rose festooned porch railing in an Oregon suburb and reads the same motor car advertisement that Cousin Peter is studying as he rides home from work in the New York subway. In Arizona you can buy the same tooth paste and tobacco that are used by the folks in Maine.

California fruit growers advertise their oranges and lemons to the people of the East. New Hampshire factories make ice cream freezers for Texas households.

There can be no division in a country so bound together by taste, habit and custom.

You can meet up with anybody in the United States and quickly get on a conversational footing because you both read the same advertisements.

Advertising is the daily guide to what's good to buy.

Advertisements give you the latest news from the front line of business progress. Reading advertisements enables you to get more for your money because they tell you where, what and when to buy.

And it is a well-known fact that advertised goods are more reliable and better value than the unadvertised kinds.
